22) This case seems to be having a previous history as can be seen from a letter dated 11-4-1955 from the Secretary, Home, Agriculture and Forest Departments, to the Chairman of the Davangere City Municipality. It appears that the Municipality had applied for this land for city improvement, but Government decided that it should be maintained as a village forest. Paragraph 12 of the Agriculture and Forests Department noting raises an important issue. Davangere is a growing industrial town and Government should examine whether it is appropriate to sanction the afforestation scheme so close to it.

Sir,

Subj:- Grant of land measuring 37 acres and 37 guntas situated to the West of Davangere Tank bed margin free of cost - to Davangere City Municipality.

With reference to your letter No.LLH 65 CIS dated 5-11-1958 on the above subject, I write to state that a joint inspection of the - Conservator of Forest, Bellary Circle and District Forest Officer, - - Chitradurga on 18-9-1958 was made and also personal discussions were held at Pravasimandira on the same day. At the end the Conservator and the District Forest Officer had agreed to the proposal on 3 conditions (A copy of the letter addressed to the Conservator in which these conditions are noted, is enclosed). They promised to recommend to Government for granting this land to our Municipality. During inspections the necessity for and the advantages of having the land were - explained in detail to the Conservator. But it is a surprice to see that the Conservator, Bellary Circle has adversely recommended to - Government.

not recd

In this connection, I wish to state that the Forest Department have taken little efforts to grow there trees, plants and shurbs etc., in this area and the trees ( ) have grown as the soil is black cotton one suitable for free growth since the sewage - water flows in the big drain in the middle of the forest. It is ascertained that some Forest Department Officers (Local Officers) are misusing the Forest Products and they are misguiding their higher authori-

ties

authorities thinking that they have to loose the unauthorised benefits of the Forest Products.

Further I write to state that the land in question in which the big feeder halla runs, is a tank bed which has been depleted long back in the interest of the Health of this City. Since this halla has not been revitted with stones on either side both the storm and sewage water does not flow freely and stagnates here and there consequently and it will be a potential source of mosquito breeding which will affect the health of the public of the surrounding area. In this connection I wish to state that the Minister for L.S.G. and Deputy Minister for Home in Mysore, Bangalore have also personally inspected the spot - and they were kind enough to promise to grant this Forest area to this Municipality for the extension of Cattle Shandy Maidan, to forming suitable sites for location of Primary and Middle - Schools and also forming play grounds and public park etc., Under these circumstances, I request the Minister for Agriculture and Forest to visit this place personally and study the situation.

In these circumstances explained above, I request you - kindly to recommend for granting the land to this Municipality at an early date. Early action is requested in the matter.

Forwarded,

SPH.

Copy of letter No.H.C.PR.283/58-59, dated 18th September 1958, from the President, City Municipal Council, Davangere, to the Conservator of Forests, Bellary Circle, Bellary.

Sub:- Grant of land measuring 35 acres situated to the west of Davangere Tank Bed margin Free - of cost to the the Davangere City Municipality.

Ref:- Letter No.A.798/58-59, dated 26-8-1958 from the District Forest Officer, Chitradurga on the above.

With reference to the above and as personal discussion with you in the matter and also joint inspection of the land in question to-day, I write to state as follows on the proposals suggested by - the District Forest Officer, Chitradurga in his letter under reference

1) The Municipality will utilise the major portion of this - land only for Recreation park and the remaining land will be made use of for the extension of Cattle Shandy and for formation of big drains. The Municipality will definitely assure you that no buildings will be allowed to be constructed, as the land in question is of black cotton soil and is not at all fit for building purposes.

2) The Municipal Council will agree to pay a sum of Rs.3,000/-

3) The Municipality is not willing to allow the Forest Department to cut and remove any of the trees grown in this land, and requests to leave the standing growths as it is requested for the Municipality itself, since the area will be utilised only for Recreation Park.

Further I write to state that the main object of taking possession of this land is for the benefit of the thickly populated surrounding area of the Old City since this land, in which a big - halla runs is adjacent to this Area and it will affect the health - of the City as it will be a source for mosquito breeding.

During the time of joint inspection of the spot - to-day, I have explained to you in detail the necessity of getting this land by this Municipality and I am sure that you have thoroughly understood the necessity of the land in question.

P.T.O.

I therefore request you kindly to take immediate steps and granting recommend for the same in this Municipality at an early date so as to take further necessary action in the matter.
